Charlotte—

Thanks for your note. I need to leave the office around 9:30pm to get a shuttle to our DC office. I could meet with you before then, if that works for you.

Hi Rick,

Hope the year is off to a good start for you (amidst all the craziness!).
I plan to be in your building on Thursday next week, Feb. 9th. Are you available for a brief visit? I am available before 11:30 if there is a time slot that works for you.

Thanks.

Aimee,

Would it be out of line to ask that the Monarch Collaborative be listed as an information resource? I think the materials we have are very good sources of information.

Hi Aimee,

Quick clarification question: I see these are slated for inclusion in the registration packets. Will there also be a Farmers for Monarch booth at Commodity Classic? Further, is there any intent to print extra copies for member booths to share/distribute?

Thanks much, looks great!

Subject: [EXTERNAL] Farmers for Monarchs 1-pager. Feedback needed by COB Wednesday

Keystone Team Members,

Attached is the latest and near final version of the Farmers for Monarchs flyer that will be used in the Commodity Classic Registration packets.

We have incorporated comments from USFWS and MJV. And we have included logos from those that accepted the invitation to join.

If for some reason there was an oversight of your organization, please let me know. Also, if you have any additional comments, please let me know. Any comments are needed by COB tomorrow to meet our submission deadline for Commodity.

Also- there are 2 versions of the 2nd page on the attached. One with logos and one with just organization names. I plan on going with the logo'ed version unless there are objections.

Thanks to all for your participation and feedback!

Aimee

Hi Aimee,
Quick clarification question: I see these are slated for inclusion in the registration packets. Will there also be a Farmers for Monarch booth at Commodity Classic? Further, is there any intent to print extra copies for member booths to share/distribute?

Thanks much, looks great!

Keystone Team Members,

Attached is the latest and near final version of the Farmers for Monarchs flyer that will be used in the Commodity Classic Registration packets.

We have incorporated comments from USFWS and MJV. And we have included logos from those that accepted the invitation to join.

If for some reason there was an oversight of your organization, please let me know.

Also, if you have any additional comments, please let me know. Any comments are needed by COB tomorrow to meet our submission deadline for Commodity.

Also- there are 2 versions of the 2nd page on the attached. One with logos and one with just organization names. I plan on going with the logo'd version unless there are objections.

Thanks to all for your participation and feedback!

Hello everyone!

Just a reminder to let me know if your organization would like to be a part of the Farmers for Monarchs Campaign. All are welcome. Absolute deadline to be able to finalize the 1-pager that will be used in the Commodity Classic Registration packets is **Friday, January 12**.

Thus far, affirmatives that we have received are:

- Bayer
- Dupont Pioneer (need a logo)
- Syngenta
- BASF (need a logo)
- Monsanto
- Bee and Butterfly Health Fund
- Sand County Foundation
- Monarch Watch
- NCGA (need a logo)
- AFBF (need a logo)

I apologize if I may have missed your note with your organization's wiliness to join, so please correct any oversights.

Thanks to all for their support. We will be finalizing the 1-pager over the coming days and then working on media and social media campaigns for launch at Commodity Classic. Additionally, we will send some additional content that will be utilized on the website for review.

Thanks!
Aimee

CEC unveils new website to foster monarch butterfly conservation and habitat restoration

Explore our new online toolbox and learn from proven, successful monarch conservation initiatives applied across North America

Montreal, 12 December 2017—The Commission for Environmental Cooperation (CEC) has launched a new website aimed at increasing participation in conservation efforts for North America's most iconic butterfly.

Through the CEC's *Monarch Conservation Toolbox*, farmers, landowners and the general public can explore best management practices, incentive programs, and pilot projects intended to restore, enhance and manage monarch habitat in Canada, Mexico and the United States, so that they can apply them on the land they own or manage.

The website allows users to:

- Find specific tools to guide agricultural practices that help to maintain healthy monarch habitat.

- Explore opportunities to receive financial support to create and/or preserve monarch habitat.
- Learn from others who have applied monarch-friendly land management practices.
- Get involved in monarch conservation efforts.

It is hoped that the North American monarch will benefit from farmers, landowners and land managers using the toolbox to create and preserve the butterfly's habitat throughout its range.

Our work to protect the monarch butterfly

For over two decades, the CEC has supported monarch butterfly conservation work by the three North American countries, which are home to the monarch and its unique and endangered migratory phenomenon. In June 2015, Canada, Mexico and the United States approved a two-year CEC project to promote habitat restoration and enhancement in key breeding grounds and migration corridors of the monarch butterfly.

Through this joint initiative, experts from Environment and Climate Change Canada, Parks Canada, Mexico's *Comisión Nacional de Áreas Naturales Protegidas* (Conanp), and the US Fish and Wildlife Service helped compile the information available in the *Monarch Conservation Toolbox*.

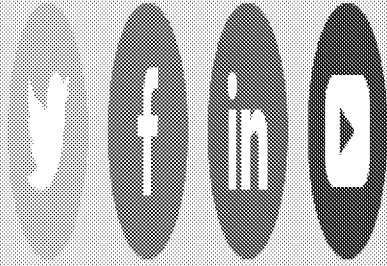

Building on the results of our 2015-2016 project, the three countries recently approved a new project, Science for Monarch Butterfly and Pollinator Conservation, as part of the CEC's 2017-2018 cooperative work program. For more information on the CEC's innovative work on monarch butterfly conservation, visit www.cec.org/monarch.

About the CEC

The Commission for Environmental Cooperation (CEC) was established by the governments of Canada, Mexico and the United States through the North American Agreement on Environmental Cooperation, the environmental side agreement to NAFTA. An intergovernmental organization, the CEC brings together citizens and experts from governments, nongovernmental organizations, academia and the business sector to seek solutions to protect North America's shared environment while supporting sustainable economic development. Find out more at: www.cec.org.

CEC initiatives are undertaken with the financial support of the Government of Canada through Environment and Climate Change Canada, the Government of the United States of Mexico through the Secretaría de Medio Ambiente y Recursos Naturales, and the Government of the United States of America through the Environmental Protection Agency.
